Rasengan Reborn Welcome to Phase 1 of Rasengan, your complete guide to the enhancement of attacks in FIFA 22. So what is Rasengan and what is this "phase" and why is it needed? Rasengan is a special attack that completes with the use of an Ultimate Move or Ultimate Team card. Rasengan can be useful to unlock different and special Ultimate Moves within a team, or use it as a stratagem to learn other moves and help unlock your Ultimate Team. Below is a guide to unlocking all of Rasengan's different phases. Note: Rasengan is only available for the World Cup Edition if you choose to play Career Mode. Unlockable Tips for Career Mode Note: Rasengan is only available for the World Cup Edition if you choose to play Career Mode. Phase 1 - The First Level Successful Rasengan stages require the use of specific combinations of Ultimates. When you start learning Rasengan, you should start with the most basic Ultimates, i.e. Hologram and Wall. You should also practice this movement as it'll help you with the next stages in this phase and later on in Career Mode. The First Level is made up of the following Ultimates: Hologram: Offense: Head of Goal Keeper Defense: Defending the Goal Keeper Wall: Offense: Defensive: Defensive Impact: Defensive Impact As you progress in Phase 1, you'll notice that you can play a lower numbered Ultimate than a higher numbered one. For instance, you can have Wall as your Ultimate in the First Level (1) and Defending the Goal Keeper as your Ultimate in the Third Level (3). Note: While learning this combination, do not hesitate to swap Head of Goal Keeper Defense with Defending the Goal Keeper for the higher level of play. The difference between the two is that Defending the Goal Keeper is very useful to defend the ball after the attacker has scored and Head of Goal Keeper Defense isn't, meaning you're much less likely to use this Ultimate in later levels. So in theory, you should have at least Wall and Head of Goal Keeper Defense. If you have these two, you'll have a decent base to start with.
