We just downloaded the 1080p version and it takes about 3 hours or so to finish. My first experience with Green Lantern: Rise of the Manhunters was positive when I played it on my PS3, but I couldn't get everything I wanted. That's why I was very happy when I got it with free shipping from Amazon Prime. This 1080p version only takes about 3 hours to complete, which is perfect for getting through the game, but I will wait to return.
